### VEHICLE SAFETY SECTION FALL OPEN HOUSE SCHEDULE

Once again the Vehicle Safety Section will sponsor Fall Open House's for regional areas. Please review the list and determine which open house you will be able to attend. We will also be providing training for the new Safety Inspection On-line inspection console. Training is required for stations to begin using the new inspection program. Due to the training, class size will be limited and require an RSVP through our office at 801-322-1390 to reserve your place. Please advise the office which session you would like to participate in and how many individuals from your business will be attending. This will help us to prepare logon information before the scheduled session.
